

Colonial Regions of America 1689–1754 Worksheet

Use your textbook and desk atlas to complete the map exercise below. The assignment will be graded on accuracy of information, neatness, and quality of presentation.

Map One: The Original 13 Colonies

1. Use three colors to show the groupings of the original 13 colonies into the colonial regions of
 - New England
 - middle colonies (mid-Atlantic)
 - Southern colonies
2. Create a legend that identifies the colors you used.
3. Include on the map the date each colony was founded.

Maps Two, Three, and Four: The Colonies by Region

1. Place the name of the region at the top of each map.
2. Label each colony within each region.
3. Identify the major cities of each region, including those in the chart below.
4. Identify the major geographical features for the region, including those in the chart below.
5. Use colors and symbols to identify economic and agricultural activities throughout the region.
6. Create a legend for each map.

Map Two: New England	Map Three: the middle colonies	Map Four: the Southern colonies
Salem	New York City	Richmond
Boston	Philadelphia	Williamsburg
Newport	Hudson River	Charleston
Connecticut River		James River
		Appalachian Mountains

How did the economic activities of the three colonial regions reflect their geography?
